THE AUSTIN RALLY

Judge T. L. Nugent Addressed 4000 People on the Capitol Grounds at Austin.

The Greatest Speech in the History of Texas was Listened to by an Anxious Throng.

On Thursday night the 18th instant we had the pleasure of listening to a great speech delivered by Judge T. L. Nugent, candidate for governor of the people's party.

A procession of over 2,500 men, headed by a brass band, was formed and marched through the avenue at Austin to the Capitol grounds where already 1500 people had gathered around the speaker's stand to hear the masterly speech of the next governor. While on the march a constant cheering was kept up for the loved chieftain.

It is with deep regret that we have not space to give the speech in full in the DEMOCRAT. It is very lengthy but we hope to be able to put it out in supplement form in a short time.

The eloquent and gifted R. W. Coleman of San Antonio introduced Judge Nugent to the vast audience who cheered lustily as the speaker advanced to the front. He began his speech as follows:

"Let us have peace," said Gen. Grant nearly two decades ago. The sentiment sent a thrill of sympathy through every southern heart. It was fondly believed that this language of the great union general, whose magnanimous treatment of our own Lee had given him a warm place in the affections of our people, would serve to mark the beginning of a new era of peace and fraternity between the divided sections of our common country. And, indeed, if the politicians could have been quieted, this patriotic expectation would have long since been realized. Party success, however, had become the end of party organization and endeavor—the public good a matter of secondary importance; and, with the decay of the old time devotion to principle, since those memorable words were spoken, the demagogues have continued periodically to swarm to the front, filling the political world with partisan clamor and strife, reviving and fanning into fresh fury half forgotten animosities of the past and driving from the arena of political action the really great men who might now successfully lead the old parties in the crisis through which the country is now passing.

A great thinker has said that "as institutions grow large men grow small." The "rule of the ring" has been supreme in this republic of ours for the past thirty years, and he who can manipulate most skillfully the political machine, secures the prize of public life, the offices and spoils. Great men no longer lead the old parties, because great men are men of soul, of humanity, of genius, of inspiration. They never are machine men. Fitted by nature to soar amid the stars, they cannot sprawl in the gutter, or court companionship with slime. Capable men are no doubt working the party machines for the usual rewards, but the times demand great men to mould the elements of reform into proper shape, and they will come as the inspiration flinds them amid the ranks of the common folks."

Following this is a long array of facts and figures strongly supporting his position on national and state politics. He closed his speech in the following beautiful language:

"Nearly nineteen hundred years ago a wonderful man, well known to history, but not much talked of in political parties, made his appearance in an oriental country. He was an ideal embodiment of truth. Plain people gathered around him and heard him speak with delight. I presume because he spoke and liked the truth, and emanations from the truth of his life and words charmed and attracted such folk.

* * * * * * *

But the author won by its utterance the crown of thorns and death on the cross. Social and industrial justice has since that time been denied to the toiling and suffering classes, because truth has been on the cross wearing the crown of thorns. But truth is now abroad once again among or a common people, as of old. That d the calling its own and its ow and hearing the call. They are crowding to the front as in that olden time, and, thank God, the times are more auspicious than they were then. The inspiration leads them. They do not threaten, but they protest against wrong, they demand justice. All the vituperation that can be hurled at them, all the derision, all the denunciation known to the political vocabulary cannot turn them to the right or left. Thirty odd years ago many of them stood before the blazing cannon's mouth in defense of an abstraction. The burden of all the ages is now upon them—the heaped and piled up burden of injustice and wrong. To the idle thunderbolts of the politicians such men can only answer with a smile. The banner of right waves above them; they are moving to victory.

Hogg a Demagogue.

The Dallas News interviewed a people's party voter who said:

"Hogg is a combination of selfishness, intolerence and demagogy, and the platform faithfully and perfectly reflects the candidate. It was built on the idea that the third party was composed of fools who would bite at any sort of bait and is artfully framed to catch our people. Hogg and his crowd can't come that racket on us at this late day. We are on to him and all his people and our folks are going to stick by Nugent until the lower regions are in a fine condition for skating. Hogg claims to be a democrat in one part of his platform and then proceeds to promulgate in a half hearted way some of the doctrines we have been contending for all along. He has got to come to the scratch and advocate government ownership of railroads the loaning of school funds on land and the sub-treasury before he will get any more people's party votes. We don't want any two faced men in ours this year.

WILL DECLARE FOR NUGENT

At the Fort Worth Convention Is the Programme of the Republicans.

DALLAS, Aug., 18.—Hon. Joseph M. McCormick, one of the leading republicans in the state, says the convention at Fort Worth in September, will indorse Judge Thomas L. Nugent for governor and that 75,000 republicans will vote for him. McCormick says that Col. Andrew Jackson Houston lily white candidate for governor will not poll more than 5,000 votes in the state.

The average democratic speaker does not like to be called upon to defend his party's record. They do not attempt to explain their complicity in passing bad laws, but point to the good they have done in the past. We all admit the good and are glad of it. But it is the bad laws of the past and the still worse outlook for the future we are dreading. —Brazos Farmer.

How would it look for Mill's old district to send up a "People's Party" man as his successor? The third party is strong throughout the rural precincts of this district and it behooves the democrats to "make hay." —Central Texan.

SPLIT IN TWAIN

Is Texas Democracy.

TWO TICKETS ARE IN THE FIELD.

George Clark Heads One and J. S. Hogg the Other.

The Hogg Faction Throws Bait to the People's Party and Opposes Part of the National Platform.

The convention of the democratic party convened in Houston on the 16th inst., when after prayer, in the language of the Dallas News, 'Gen. Pandemonium was selected chairman."

The first fight occurred on the selection of tempoary chairman. Tom Brown nominated John L. Shepherd for tempoary chairman on behalf af the Hoggites. A. L. Matlock nominated Jonathan Lane in behalf of the Clarkites.

Matlock moved that the election be made viva voce.

Brown made a point of order that precedence required that the election be had by roll call of counties.

A storm of yells broke forth from both men. Chairman Finley sustained Brown's point of order. Matlock moved a division of the house but the chair refused to recognize him.

Matlock then appealed from the decision of the chair but Finley refused to put the appeal.

Pandemonium then broke loose and both Shepherd and Lane were declared elected and for a while two conventions were held in the same hall. For over one hour confusion reigned supreme, when both conventions adjourned to meet at 9 o'clock on the 17th. During the pleadings of a Clark delegate for fair play a little red faced Hogg delegate jumped to his feet and shouted, "O dam you! dam you!

Promptly at the hour named on the 17th, the Clark delegates showed up at the convention hall, but had been preceded by some policemen who had been employed to keep Clark delegates out unless they were the proper badges.

A majority of the Clark delegates then went to another hall and proceeded to organize and elect an entire state ticket as follows:

For Governor—Hon. George Clark.

For Lieutenant Governor—C. M. Rogers, of Travis.

For Attorney General—E. A. McDowell, of Coryell.

For Comptroller—C. B. Gillespie, of Dallas.

For Treasurer—Thomas J. Goree, of Cherokee.

For Superintendent of Public Instruction—Jacob Bickler, of Galveston.

For Judges Criminal Court of Appeals—W.D. Wood, of Hays and R. H. Hhelps, of Fayette.

For Commissioner General Land Office—W. C. Walsh, of Trayis.

The Clark platform endorses equality before the law, opposes sumptuary legislation and one man power, favors the election of all officers by the people, especially the railway commissioners. It opposes the Jester amendment, favors the protection of land owners against the claims of the state. It opposes monopolies and arraigns the administration of Gov. Hogg. It condemns communism and all oath bound secret organizations. It endorses the entire National democratic platform as adopted at Chicago.

THE HOGG CONVENTION.

The Hogg convention nominated the following ticket:

For Governor—James S. Hogg, of Smith.

For Lieutenant Governor—M. M. Crane, of Johnson.

For Attorney General—C. A. Culberson, of Dallas.

For Treasurer—Wm. Wortham, of Hopkins.

For Comptroller—John D. McCall, of Travis.

For Land Commissioner—W. L. McGaughey, of Hood.

For Superintendent of Public Instruction, J. M. Carlisle, of Tarrant.

For Judges of the Criminal Court of Appeals—Simpkins and Davidson, the present incumbents.

The Hogg platform pledges devotion to the "time honored principles of the democratic party," opposes taxation and tariffs except for necessary revenue, denounces all bounties and subsidies of the general government, opposes the "force bill." It advocates "free and unlimited coinage of silver," opposes the national banking system, favors a graduated income tax for federal purposes, denoucecs all species of class legislation, stands by the appointive railway commission, opposes land corporations, favors a lien law for artisans, mechanics and laborers, opposes the convict system of leasing, declares against communism and pledges to support legislative interests of both capital and labor. A minority report was offered which endorsed the silver plank of the National platform but was snowed under, whereupon a second bolt took place by the Clark delegates. There was several fights during the convention but no one killed.

It was a "grand, gloomy and peculiar" convention, the proceedings of which is entirely more than we can find space for.

The conventions both adjourned with knives drawn for a bitter fight to "Turn Texas Loose."

Do you know, reader, that if Christ would come to the earth humbly and lowly as he did nearly 1900 years ago he would not be permitted to preach in two-thirds of the pulpits of the land, and would be put on a rock pile in three-fourths of the states as a tramp!—New Forum.

NOW

IS A GOOD TIME TO HAVE YOUR

Cancer Cured!

A Great Many People Who Have Cancer Put Off Having It Treated Until Too Late

A cancer very often starts in the breast of females; very often they will work their way inward before they come to the surface; if not attended to in time, when they come to the surface they grow rapidly. I have known them to measure eight inches in circumference, and protrude four and a half inches in seven months' time after breaking the surface.

The Encipbaloid, or soft cancer, makes its appearance in the shape of a pimple or scab; it may fall several times until the ulcer eats so fast that a scab will no longer form, and the sore keeps spreading and gets deeper until destruction takes place.

Colloid cancer commences to discharge a glue like pus from their first appearance; they also keep spreading and eating deeper.

Melanosis, or black cancer, being located upon or near a blood vessel, in which they draw blood through their tubercle roots, which give them their black appearance, and whenever the skin breaks, bleeds profusely.

Ephitheal, or skin cancer, is often caused by impurities of the blood, such as scrofula; they will appear as a small pimple which will break out in the center, and the edges will roll outward, showing a smooth, shining, elevated edge, and are very painful until they reach a second stage, that is when they begin to spread their destroying roots, which you will notice by some of the following symptome: They may feel itchy at times, or darting pains, like the sticking of a needle, which vanishes suddenly, or a burning sensation, and sometimes they have a crawling sensation. As soon as the symptoms are felt you should apply for relief.

I can cure your Cancer and guarantee a cure. It don't cost you anything to give me a trial

THE ALLIANCE GROWING.

So Says a Special to The Dallas News.

AUSTIN, Tex., Aug. 17.—The state alliance reversed the order of things to-day and elected officers instead of reading annual reports. Reports can wait, so they will be read to-morrow.

First on the list was the report of the committee on credentials. It was a mere formality, not a single seat being contested. Some resolutions were introduced and referred to the committees.

Then the alliance decided to go into their election of officers. For the office of president there has been a lively contest. The constitution of the order prohibits any man from working in his own interest, but says nothing about his friends.

R. A. High of Navarro was finally successful. Mrs. N. L. Barrett of Dallas, secretary and treasurer, who had a sure thing on the place for a second term, at the last minute decided not to serve, and Miss Fannie Moss of Cleburne was elected unanimously. For vice president J. R. Granberry of Travis was elected. Stump Ashby from the state at large is the new state lecturer. The executive committee follows: Henry E. McCullough chairman, G. L. Clark of Earth and G. W. Baird; for delegates to the national alliance, Harry Tracy and W. R. Cole of Dallas and L. S. Rhodes of Van Zandt.

The News is informed that the reports will show more than 500 new alliances established in Texas in the year just closed, and the total membership to be somewhere around 125,000. It is said despite hard times collections of alliance money has been better and suspensions of non-payment of dues have been less in the past year than ever before in the life of the order. This is the first session for years where there was money enough in the treasury to pay the mileage and per diem of the members.

Last year only 50 per cent was paid. It is claimed that the figures will show a great increase in the number of papers advocating alliance principles and the total is more than 125. There is a prospect for many more in the near future. It is said many projects for promoting the education of alliance men, both in political economy and otherwise are being discussed and something may be done with the question of furthering the business of alliance stores and means to secure united action on the part of alliance men may come up.

The democratic party is now posing as the special champion of labor. If it wanted to champion the principles advocated by organized labor, why did it not adopt labor's platform? All the great labor organizations met in St. Louis lat February and put forth to the world their demands and pledged their support to that political party which would stand for their principles. Why did not democracy endorse the demands of labor? Was it because Wall street said, "you dare not?"—Brazos Farmer.

THURSDAY, AUG. 25, 1892.

ON with the bolt.

R. Q. Mills has announced in favor of Hogg.

STAND on guard boys and the victory is ours.

THE Houston Convention is enough to make Henry Jennings smile.

HOW does General Pandemonium stand on the silver question?

THE Sherman Register says that Clark is the democratic nominee for Texas.

THE Hogg county convention at Corsicana sent a negro delegate to the Houston convention. —Fort Worth Advance.

WONDER if the Hogg crowd look on the "graduated income tax" plank as a "visionary scheme."

WE make a motion to transfer the term "Old Brains," as applied to Senator Coke, to Judge T. L. Nugent.

THE Hogg faction called on the police force to hold off Clark delegates. What's the matter with the force bill?

WE presume that the Hogg crowd will find it hard to "hood wink" the Nugent men with their "third party" platform.

THE "third" party platform of Mr. Hogg will not catch the boys this time. He caught them once and they profited by the sad experience.

IT is now in order for Hogg democracy to continue the ridiculing of the people's party and prate about "well defined principles."

GEN. J. B. Weaver, candidate for president, will pass through Texas next month and speak at central points. He will speak at Dallas on Monday night the 5th.

THE Hogg platform is getting into a muddled condition. The commission is knocked out. The silver plank is contrary to the Chicago plank and several people's party planks is tough crow for democrats.

CLARK delgates bolted Chairman Finley's ruling and the Hogg delegates bolted the Chicago platform. Where is Texas Democracy? The bolter bolts the bolter, after which there is nothing left.

THE Hogg platform and Cleveland's platform don't agree. How will the Hogg speakers harmonize the matter? They will possibly have to whittle away on the "12th" plank. On with the bust.

JUDGE MCCORMICK of the Federal court granted the injunction against the Texas railway commission last Monday. The decision is a lengthy document. The state appealed to the decision of the supreme court.

CONGRESS passed an act on July 27, 1892, granting pensions to survivors of the Indian wars between the years 1832 and 1842. widows of soldiers are entitled. Information in regard to same can be had at this office.

THE Texas State Fair and Dallas Exposition promises to be more complete than ever. The premium list is unusually large. A considerable increase of county exhibits are reported and the program of entertainments is an excellent one. Its officers deserve great credit for their untiring energy to make this grand state institution a success.

Governor's chair there will be no work for the court to declare his laws unconstitutional. He has set on the judicial chair for many years and his reputation in that line is most excellent.

To Gov. Hogg: Quit the race and throw your strength to Nugent whose platform your crowd has appropriated. By doing this you will aid a man who is a judge of law, and who will not be impeached on every hand by the courts of our country.

Our exchange table was visited this week by Vol. 1 No. 1 of the Seger (I. T.) Sentinel published by F. T. Cook, a former citizen of this city. Friend Cook is an able and practicable newspaper man which insures him success. We trust that his paper will receive the well merited patronage of its community.

ONE peculiarity of the election held in Alabama was the votes of the negroes for the democratic nominee, while the white republicans voted for the alliance candidate. Jones is probably the first democratic nominee in any southern state ever elected by the help of the negro votes.—Greenville Herald, (Dem.)

Latest from the Houston Convention.

MR. CHAIRMAN! !— ?! "O dam you"!!? Get out!! Bolt and be ——. Whoop!! I rise— 'Rah for Clark! 'Rah for Hogg? 'Rah for Nu—. Take him out!! Whiz! Bang! Pop! H—l, tyrant! Mr. Chair—— Demagogue! Louder! Shut up! I make a motion to adjourn let us have prayer ? ! * ☞ ☜ * ! ?

Judge T. L. Nugent.

Possibly no man within the history of Texas, honored as a standard bearer of any party, has had a record so clean and formable against attack as that of Judge Nugent the standard bearer of the people's party.

He bravely holds aloft that banner over his on earnest protest and against the sneers of friends who were politically opposed to him. We listened with pleasure to his great Austin speech which was replete with studied thought, void of demagogue's ring and the idle meaningless anecdote. He threw the shining lance of reason full and fair in front of his political enemies. He soared high above the mountain of prejudice where the breeze of love and truth refreshed his anxious audience. His very appearance is sufficient to win the affection of one who meets him. He is of medium height, rather slender and gray, with pleasant countenance. His voice is tender, and persuasive.

In brief his character is one of brain and heart.

It Is All Right.

10. "We demand that the maximum salaries of county officers shall not exceed $2,000 per annum after all expenses have been paid and that all surplus in excess of such salary and expenses shall be paid into and become a part of the available public school fund of such county, and that said excess be prorated in such counties."

What's the matter with the above piece of timber from the Texas state platform of the people's party? We believe this party is the first to take notice of the exhorbitant salaries allowed to many county officials, and which the people have to pay.—Farm and Ranch.

Call for Campaign Funds.

The following is a worthy appeal:

To all reformers throughout Texas: The discontent and warfare now existing in the old parties in Texas assures the complete victory of the people, In order for us to avail ourselves of this advantage it is of the utmost importance that immediate contributions be made to enable us to distribute campaign literature and pay the expenses of speakers. It is well known that these funds must be secured from the friends of the movement. A small amount from each man will aggregate a sufficient amount to meet present demands. It is of crying import-

en up at once in every section of the state. If we are to secure the victory now almost in our grasp we must make some sacrifices The undersigned therefore urge the friends of reform to forward at once to Milton Park, treasurer people's party campaign committee, Dallas Tex., such sums as they may obtain for the cause, however small. One dollar by Sept. 1 will do us more good than $5 after that time.

Editor Democrat:

Politics seems to be at a low ebb just now; the democrats are studying what to do with their two candidates for governor.

There is some excitement over the local option election, which is ordered for the 7th of September, for Precinct No. 8.

The people's party met here the 20th inst., and nominated precinct officers, to wit: W. W. Maddox for justice of the peace and N. R. Williamson for constable. A FARMER.

Use Dr. Price's Cream Baking Powder.

IF YOU WISH TO AVOID THE TWIN DRUGS,
ALUM AND AMMONIA

Dr. H. Endemann, for twelve years chemist of the New York Board of Health, in his paper read before the **American Chemical Society** at Washington, in October, 1891, states that an ammonia baking powder acts on the gluten of the flour, altering its chemical properties, and cites numerous high authorities to prove its injurious effect on the stomach and kidneys.

Liebig the great chemist says: "The use of alum in bread is very injurious, and it is very apt to disorder the stomach and occasion acidity and dyspepsia."

The following powders are known to contain either ammonia or alum or both: *Royal, Chicago Yeast, Calumet, Bon Bon, Taylor's One Spoon, Unrivaled, Forest City, Snow Ball, Pearl,*

Health of this vicinity is pretty good just now.

Have had some refreshing showers of rain in the past week, which added greatly toward cooling the atmosphere.

The protracted meeting at "Calamity City," conducted by Bros. Shipman and Lowry still continues. These worthy divines are earnestly pleading for the erring sons and daughters of Adams apostate race to flee from the wrath to come. Large crowds of people are in attendance every night.

The residence of our enterprising merchant, J. G. Osborn, is nearing completion. To say this city is on a general boom would hardly do justice to the place.

Mr. Dixon and family visited friends and relatives near Lebanon the past week.

Mr. Flanery and wife from Wise county are visiting their daughter, Mrs. Gaither, this week.

John Gaither left for Denton last week, in answer to a telegram calling him to the bedside of a dying relative.

The hum of the threshing machine is heard in every part of this country now. The yield of grain is pretty fair for this year.

Cotton picking will soon be the order of the day, and we trust there will be a bountiful yield "and a bountiful price." There are some few boll worms to be seen but they are not doing any serious damage.

The readers of the Democrat will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Gray Bill, Collin Co., Tex.

I have been a great sufferer from piles for 12 years and would often be laid up from work for three weeks at a time and not be able to do anything and I suffered severely from my kidneys. I have been under good doctors but they failed to do me any good. I very reluctantly went to Dr. T. C. Reedy and was scarcely able to get to his office. I have only been treated three times, and I have gone to work. I would not take $10,000 for the good he has done me. I make this statement unsolicited for the benefit of suffering humanity.

Foreign Ownership of Lands and Other Property in Our Republic Not Democratic nor Consistent.

BY PROF. A. P. A. STRAIO,

Some, on the question of foreign ownership of lands and other property, I heard say, "Oh we must let foreign capital come into this country and it will give us more money, enliven business, and will make times better." This may look very plausible on first observation but it will not bear investigation. The truth of the matter is that foreign citizens owning lands or have capital otherwise invested in this country, means subjection to them to that extent; so that in the course of time, if it is allowed to continue, they will get to own so much of the wealth that it will prove disastrous to our liberties. For instance, the foreign land owners are gradually instituting a system of tenantry similar to that in their own country; and those who have capital invested in public property, as railroads, or other mediums, as banking, work directly or indirectly in congress and the state legislatures for the establishment of such laws which are for their own interests in their own countries at the detriment of the people's interest in this country. Why, for example, what did England's ownership of property do for Ireland? Did England's ownership of all the lands and nearly all the property, cause the Irishmen to have plenty of money? Did it enliven business and make good times? No. Shame upon the subjugation and oppression of poor Ireland.

Yea, the essential characteristics of a republic is to protect its people against the infliction of injustice by other nations or by the people thereof. But for capitalists of foreign nations to be permitted to invest their capitals in this country and monopolize tracts of land and other property or commodities and deprive the poor classes of people of the ability to obtain it, unless at ungrateful prices, and compel them to go with out homes and undergo hard ships, is not right, and therefore not democratic. And no consistency is there for foreigners to own property in another nation. If they want to own property in another nation let them go there and become citizenized and live there and act according to propriety.

And so, when we have congressmen or legislators who act in favor of alien ownership of property, it is to be known that they are not the right kind of men; and are recompensed or influenced for so doing by the money powers of oriental monarchies. Even millions of dollars are there already invested in our country by these oriental capitalists, and thousands of dollars are there secretly paid paid to our congressmen, legislators, electors, and other influential men, who they can bribe, to have the condition of our government gradually succumb to their rule and enable them to please their avarice. Such a grip even have they at this day that, now, sometimes English capitalists throw out insinuations of defiance.

An amendment to the constitution of the United States in this respect should be made, modeled after the following:

Alien ownership of lands and other property (exclusive of traveling apparels or chattels) shall not be tolerated; whereas, all such lands and property owned by aliens five years after the approval of this act, and all times thereafter, shall be confiscated to the government of the United States, But congress shall devise means of obtaining all such lands and property owned by aliens or foreign syndicates.

Over Production.

Harry Tracy's Speech.

We clip the following from a report of the Dallas News of Tracy's Austin speech:

Harry Tracy yesterday delivered his first speech on state issues. After reading the platform of the populist, he said:

"We want some relief. Mills and Hogg—they are a sweet pair; ain't they?—[loud applause] have been going around over this state telling how they were going to squeeze the wind and water out of this thing and that thing and reduce the tariff and all that sort of stuff and all they have done would go in the shell of a mustard seed and leave room for several families. [Loud applause.] Hogg comes along and says he wants to loan our school fund on an air line railroad—that one that is to run from Dallis to Galveston and which brought Walter Gresham and all those plutocrats to supporting him. He is a pretty fellow, ain't he? If he had come out that way two years ago he would never have been sitting in his office in that building over yonder (pointing to the capitol). But suppose that money had been loaned to these fellows, what would have happened? We would have built the roads and then the big roads would have gobbled them up. Jay Gould would have them in his pocket. [Laughter, and cries of "that's so."] If the big roads did not get these little roads they would see that the little roads never got any freight and you would have a receiver and you all know what these East Texas receivership mean. [Loud laughter and cheers.] We want that money loaned on the earth. The earth always pays its debts. It has always paid the debts of the world. It never went back on any man yet and is the finest security on the face of the globe. We propose to fix it so every man who has any land can get a little money, and we don't propose to touch your homestead either. [Applause.] The Hogg men say we want to steal your homestead by this plank. The only trouble with these fellows is that we got on to their scheme to give our children's money to Wall street and we nipped that little scheme in the bud, and don't you forget it. [Cheers and voices, "Hit 'em again, Harry, you are right.]

Mr. Tracy said that Mr. Mills had quit running on his merits and was now canvassing on his confederate record. If every confederate who had as good a war record as Mills was entitled to a seat in the senate, congres would have to double the representation in the upper branch about one hundred times in order to get them all in. [Applause] He charged Senator Mills with being the agent of Wall street, with treachery and cowadice. He said Mills was always cussing the third party to their backs, and when he got in front of them he was for peace.

Mr. Tracy's referrence to Mills and Hogg were both loudly cheered. He will hereafter leave the national platform of the people's party to the candidate for congress and devote himself exclusively to state issues.

PEOPLE'S PARTY PLATFORM.

National Platform.

Finance—We demand a national currency, safe, sound and flexible, issued by the general government only, full legal tender for all debts, public and private, and that without the use of banking corporations, just, equitable and efficient distribution direct to the people at a tax not to exceed 2 per cent. per annum to be provided as set forth in the subtreasury plan of the farmer's alliance, or some better system, also by payments in discharge of its obligations for public improvements.

A. We demand free and unlimited coinage of silver and gold at the present legal ratio of 16 to 1.

B. We demand the amount of the circulating medium be speedily increased to not less than $50 per capita.

C. We demand a graduated income tax.

D. We believe the money of the country should be kept as much as possible in the hands of the people, and hence demand all state and national revenues shall be limited to the necessary expense of government economically and honestly administered.

E. We demand postal savings banks be established by the government for the safe deposit of the earnings of the people and to facilitate exchange. Transportation being means of exchange and a public necessity, the government should own and operate the railroads in the interest of the people. The telegraph and telephone, like the postoffice system, being necessary for the transmission of news should be owned and operated by the government in the interest of the people.

LAND.

Land including all natural sources of wealth is the heritage of the people and should not be monopolized for speculative purposes and alien ownership of land should be prohibited. All the lands held by railroads and other corporations in excess of their actual needs and all lands now owned by aliens should be reclaimed by the government and held for actual settlers only.

STATE PLATFORM.

Section 1. All the public lands of Texas remaining and that can be recovered should be reserved as homesteads for actual settlers. All lands heretofore granted to individuals or corporations in which the grantees have not complied with the conditions of the grant should be forfeited to the state for homestead purposes, no alien ownership of lands should be allowed in Texas; corporations shall not be allowed to own more land than they actually use in the prosecution of their business.

Sec. 2. We favor an effective system of public schools for six months in the year for all children between the ages of 6 and 20. We demand the adoption of a uniform series of text-books for the public schools of this state and that they be published at the expense of the state, which shall be furnished to the children in the schools at cost.

Sec. 3. We demand an amendment to our state constitution authorizing the loaning of our permanent school fund not otherwise invested upon lands of the people of this state at a low rate of interest with proper limitations upon the quantity of land and the amount of money.

Sec. 4. We demand reformation in the punishment of convicts that convict labor be taken out of competition with citizen labor; that convicts be given intellectual and moral instructions, and that the earnings of the convict, above the expense of keeping, shall go to his family.

Sec. 5. We demand that railroads be compelled to pay their employes in the lawful money of the country, and in case of discharge then they be paid at the nearest station immediately upon their discharge.

Sec. 6. We demand fair elections and an honest count of the votes, under either the Australian or some similar system of voting.

Sec 7. We favor a railway commission with power to fix and maintain rates that will insure equal and exact justice to the people and the railways. The commission to be composed of three qualified citizens of the state to be elected by a direct vote of the people. But we regard government ownership as the ultimate solution of the railroad problem in the limits of the state.

Sec. 8. We demand an efficient lien law, that will protect the artisan, mechanic, laborer and material men.

Sec. 9. We demand that a law be passed declaring eight hours to be a legal day's work, where it is not otherwise provided by contract.

10. We demand that the maximum salaries of county officers shall not exceed $2000 per annum, after all expenses of any such office have been paid, and that surplus in excess of such salary and expenses shall be paid into and become a part of the available public school fund of such county and that said excess be prorated in such counties.

11. We demand the establishment of the state bureau of labor. We favor the creation of a state board of arbitration to adjust all differences between corporation and employes.

12. We demand that commissioner's courts be not allowed to contract a debt against a county for more than $5,000, unless the same be ordered by a majority vote of the county

13. We favor such a change in the constitution as shall prohibit national bankers and members of railway, telegraph and telephone companies and their attorneys, or who shall have held such positions within two years prior to an election from holding any legislative or judicial office within this state.

Property in Our Republic Not Democratic nor Consistent.

BY PROF. A. P. A. STRAIO,

Some, on the question of foreign ownership of lands and other property, I heard say, "Oh we must let foreign capital come into this country and it will give us more money, enliven business, and will make times better." This may look very plausible on first observation but it will not bear investigation. The truth of the matter is that foreign citizens owning lands or have capital otherwise invested in this country, means subjection to them to that extent; so that in the course of time, if it is allowed to continue, they will get to own so much of the wealth that it will prove disastrous to our liberties. For instance, the foreign land owners are gradually instituting a system of tenantry similar to that in their own country; and those who have capital invested in public property, as railroads, or other mediums, as banking, work directly or indirectly in congress and the state legislatures for the establishment of such laws which are for their own interests in their own countries at the detriment of the people's interest in this country. Why, for example, what did England's ownership of property do for Ireland? Did England's ownership of all the lands and nearly all the property, cause the Irishmen to have plenty of money? Did it enliven business and make good times? No. Shame upon the subjugation and oppression of poor Ireland.

Yea, the essential characteristics of a republic is to protect its people against the infliction of injustice by other nations or by the people thereof. But for capitalists of foreign nations to be permitted to invest their capitals in this country and monopolize tracts of land and other property or commodities and deprive the poor classes of people of the ability to obtain it, unless at ungrateful prices, and compel them to go with out homes and undergo hard ships, is not right, and therefore not democratic. And no consistency is there for foreigners to own property in another nation. If they want to own property in another nation let them go there and become citizenized and live there and act according to propriety.

And so, when we have congressmen or legislators who act in favor of alien ownership of property, it is to be known that they are not the right kind of men; and are recompensed or influenced for so doing by the money powers of oriental monarchies. Even millions of dollars are there already invested in our country by these oriental capitalists, and thousands of dollars are there secretly paid paid to our congressmen, legislators, electors, and other influential men, who they can bribe, to have the condition of our government gradually succumb to their rule and enable them to please their avarice. Such a grip even have they at this day that, now, sometimes English capitalists throw out insinuations of defiance.

An amendment to the constitution of the United States in this respect should be made, modeled after the following:

Alien ownership of lands and other property (exclusive of traveling apparels or chattels) shall not be tolerated; whereas, all such lands and property owned by aliens five years after the approval of this act, and all times thereafter, shall be confiscated to the government of the United States, But congress shall devise means of obtaining all such lands and property owned by aliens or foreign syndicates.

Over Production.

And then they come and talk of over-production! Over production! When the miner, who piles up mountains of coal at the pit's mouth, has not enough to pay for a fire in the depth of winter? When the weaver, who weaves miles of cloth, must refuse a shirt to his naked child! When the mason, who builds palaces, has to live in a garret!
